THE MOST FUN AND EFFECTIVE COMMUNITY AVALANCHE NIGHT IN THE NATION.”
- Steve Christie
Backcountry Access (BCA)

KEYNOTE SPEAKER:

ASPECTS
ADVENTURES ON THE ARCHANGEL RIDGE
BY NOAH HOWELL

Backcountry skiing is one of the more complex activities around. What other sport requires competence in fitness, navigation, avalanche awareness, first aid, skiing, mountaineering and weather forecasting? For the past 17 years, Noah Howell has been developing those many aspects of backcountry skiing in his backyard mountains and all over the world, in hopes of skiing some of the biggest and most remote mountains. Come see how all the pieces fell into place last season when he and a group of friends made the 2nd descent of the 11,000 foot Archangel Ridge on Mount Foraker in Alaska.
